DETAILED ACTION

1. Claims 1 through 3, 5 and 6 are pending. Applicants' claim to foreign priority from application JAPAN 2004-082144 filed March 22, 2004 is acknowledged, but yet remains to be perfected with the filing of an English translation of the certified priority document. Applicant's arguments filed July 10, 2009 have been entered and carefully considered.

Prior Rejections

2. With regard to the prior rejection of claims 1 through 3, 5 and 6 under the under 35 U.S.C. 103(a), Applicants argue that the instant method uses propylene as a substrate rather than the more bulky substrates used by Wu et al., and that Abekawa et al. teach only the use of a calcined (crystalline) catalyst. Applicants' arguments are not found to be persuasive for reasons of record. There is no substantial difference between the XRD data reported for the instant materials and that taught by Wu et al. (see page 7, Fig. 1). Therefore it is obvious that the materials are substantially the same. Wu et al. also teach that the catalyst *"shows more excellent catalytic activity on liquid-phase epoxidation of linear alkenes than TS-1 and Ti-Beta"* (see page 3, 2nd paragraph). The combination of Wu et al. and Abekawa et al. remedy the deficiency of a non-calcined catalyst in the method of Abekawa et al.. Therefore, the rejection of claims 1 through 3, 5 and 6 as obvious over Wu et al. in view of Abekawa et al. is maintained for reasons of record.

3. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
